1.0 About ITC

We're ITC, an end-to-end provider of business communication solutions. We make staying connected simple for our clients with a personal approach and a commitment to reliability.

Our size is our strength - we combine the reach of large providers with the care and agility of a close-knit team.

Founded in 2006, our telecoms and internet business is dedicated to simplifying communication solutions and providing clear, jargon-free support to organisations nationwide.

We serve as the essential backbone for a wide range of sectors. With a strong focus on customer support, we deliver reliable, customised communication solutions that empower our clients to operate smoothly and achieve success.

“

As Founder and MD of ITC, my goal has always been to simplify telecommunications with flexible, agile solutions and unmatched service.

Over two decades, we’ve built a team of experienced, energetic professionals who embody trustworthiness, loyalty, and a passion for getting the job done.

We’ve also developed strong relationships with tier one service providers who share our values and strategic vision. If ITC can support your organisation, let’s connect.

Nasar Hussain , Director and Founder of ITC

2.0 What Drives Us

Mission

To be a guiding force for our customers with outstanding communication solutions and best-in-class service, while always staying true to the principles that define us.

Vision

To keep our clients seamlessly connected and to be admired for our dedicated, proactive, and personal approach to exceptional customer service.

Values

Keep everything as simple as it needs to be

The business comms world can be confusing for customers, so we make their lives easier. We don't hide behind jargon, bombard them with information they can't understand or sell them things they don't need. We keep things simple.

Be ready to talk whenever our customer are

Unsurprisingly, given the nature of our business, we love to talk. Our customers phone us for support, advice and reassurance, so we've built our business on always being there when they call.

We do the right thing, always

From going above and beyond to support our clients, we stand out as we apply a simple approach, reliable service wrapped with relationships built on trust to our entire ecosystem. We pride ourselves on doing business the right way.

3.0 Why Choose ITC?

Personalised Support:

Dedicated account managers who understand each client's needs.

Speed of Service:

Fast response times to keep business running smoothly.

Proactive Solutions:

Monitoring and future-proofing to stay ahead of technological changes.

Transparency & Value:

Clear, fair pricing without hidden fees or surprises.

“

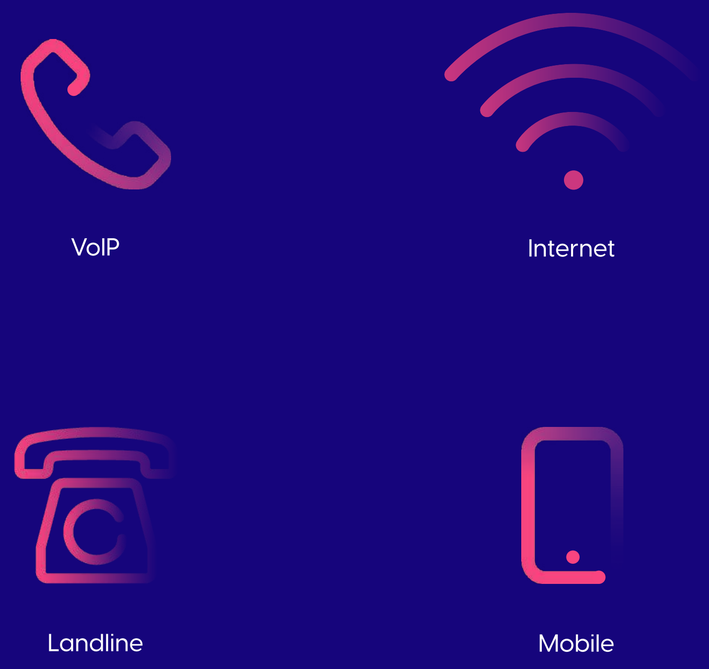
We have been highly impressed with the level of service and support provided by ITC from day 1.

The multi-site dedicated internet connectivity ensures seamless, high-speed access across all our locations, enhancing both efficiency and resilience. Their VoIP communications platforms has streamlined collaboration, enabling seamless internal and external connectivity for both office-based and remote teams. Additionally, the mobile package provided ensures our field teams always remain connected, supporting both voice and data access.

ITC’s commitment to simplicity, reliability, and doing the right thing is evident in every interaction, our valued communications partner for this truly once in a lifetime year for Braford.

Miriam O’Keeffe, Operations Director
Bradford UK City of Culture

4.0 What We Offer



At ITC, we provide a complete suite of communication solutions designed to keep your organisation seamlessly connected. From VoIP systems to secure internet connectivity, reliable landline support, and tailored mobile plans, our services cover every aspect of business communication.

We take pride in delivering solutions that are not only high-quality and business-grade but also simple and accessible. With ITC, you'll have a single partner for all your communication needs, allowing you to focus on growing your organisation while we keep you connected.

VoIP - The Technology to Talk with Freedom

VoIP is the future, and we make the transition easy. Enjoy unlimited calls across multiple devices with reliable, scalable technology - all supported by our business-grade internet connectivity.

Features: Unlimited call allowances, multi-device support, scalability, lower costs.

VoIP

Why Choose VoIP From ITC?

Empower your organisation with ITC's VoIP, equipped with essential features for high-performance communication:

- **100% uptime** to keep your organisation always connected
- **Best-in-class platform** for quality and reliability
- **Unlimited calling** across landlines and major mobile networks
- **Desktop & mobile app** for flexible, hybrid work
- **Call analytics** to optimise communication strategies

The Power of Reliable Communication

A dependable phone system is essential for smooth business operations, enabling effective communication across customers, partners, and team members, For customer service, a reliable phone system means responsive support and stronger client relationships. Sales teams depend on it for seamless outreach, follow-ups, and closing deals without disruptions. Internally, it enhances collaboration, particularly in urgent scenarios where swift, direct responses are needed.

ITC's Solution: VoIP

VoIP from ITC is designed for reliability and flexibility. Offering 100% uptime guarantee and a best-in-class platform that ensures high-quality, uninterrupted communication. With features like unlimited landline, mobile calls, desktop/mobile app access, and hybrid working tools, VoIP adapts to the evolving needs of modern organisations.

Internet - Business is Unpredictable
Your Connection Shouldn't Be.

Our business-grade internet connectivity keeps you connected without interruptions. Proactively monitored, it ensures a seamless connection so you can focus on work, not worry about connectivity.

Features: Proactive monitoring, managed installation, guaranteed highest speeds promise.

Internet

Why Your Organisation Needs Strong Connectivity

Reliable internet connectivity is the backbone of modern organisations. It powers cloud computing, VoIP telephony, and enables enhanced communication and operational efficiency.

For sales and marketing teams, it means reaching global markets and connecting directly with customers. HR benefits from streamlined recruitment, onboarding, and remote training, while operations teams gain seamless collaboration and access to essential project management tools. Additionally, data-driven decision-making is supported through secure, cloud -based analytics across departments.

How We Can Help

ITC's Internet provides organisations with the robust, high-speed connectivity they need. With business-grade Service Level Agreements (SLAs), best-in-class hardware, proactive monitoring, and unlimited usage, ITC's internet service supports seamless operations and future-proof growth.

Why Choose ITC?

ITC offers premium connectivity that ensures reliability, speed, and security for organisations across all departments. Our Internet service gives organisations the tools they need to stay connected, efficient, and ready for the digital future. With ITC's Internet, you get premium features as standard.

Landline - The Landline Legacy

With the Public Switch Telephone Network (PSTN) switch-off approaching, we guide your transition to digital solutions while maintaining current lines with the best value and award winning service.

Features: PSTN support, nationwide relationship with BT Openreach for optimised packages.

Landline

Why Choose ITC for Your Migration?

- **Extensive Expertise:** Over 25 years of experience with legacy systems
- **Migration Specialists:** Focused on multisite transitions for seamless upgrades
- **Cost Efficient Billing:** Award-winning billing team to ensure guaranteed savings
- **Direct Openreach Collaboration:** Access to Openreach's engineering support for swift resolutions
- **Proven Track Record:** Agile and flexible approach, with 80% of our client base already migrated.

Our Modern Situation

To maintain competitive connectivity, transitioning to fibre based and Ethernet technologies is essential. These modern alternatives provide enhanced reliability and speed, equipping organisations with the tools needed to handle complex digital requirements. By moving away from outdated copper lines, the UK's communications infrastructure will support greater efficiency, robust connectivity, and improved service quality.

The Need for a Modernised Network

Legacy copper lines like PSTN and ISDN have been central to UK communications for decades, but these older systems can no longer meet the high-speed demands of today's digital world. With Openreach set to phase out these technologies by January 2027, organisations and homes must shift to advanced alternatives, such as SoGEA, FTTP, and Ethernet, to stay connected, efficient, and future-ready. This upgrade enables faster, more reliable internet and supports essential capabilities like cloud computing, remote work, and IoT integration.

Mobile - Stay Connected, Wherever Business Takes You

Our mobile plans are customised to fit each client's unique needs, so you're not paying for features you don't use. We match you with the right handset, network, and plan for seamless connectivity.

Features: Customised mobile plans, choice of major network, reliable connectivity, unlimited usage as standard.

Mobile

Empowering Modern Mobility

Business mobile and SIM packages are essential for today's flexible work environments, offering scalable solutions that keep teams connected without worrying about data limits or unexpected expenses. Remote and mobile employees can access critical apps, documents, and communication channels seamlessly, enhancing productivity on the go.

Comprehensive, Customised Solutions

With ITC's Mobile Packages, organisations gain access to a range of tailored, cost-effective mobile and SIM plans across all major carriers. These solutions ensure that your team remains reliably connected, whether they're in the office or in the field.

Why Choose Mobile?

We offer bespoke packages tailored to your organisation's needs, ensuring a customised solution that fits perfectly. With coverage across leading carriers such as O2, Vodaphone, EE, and Three, you can stay connected wherever you go. Our price-match guarantee ensures cost-effective solutions, giving you the best value for your investment. We provide the latest handsets for optimal performance, keeping your organisation equipped with cutting-edge technology.

Ready to talk?

We're here to keep things simple, connected, and tailored to you. Reach out to our team today.
